MEA PRODUCT GUIDE 2017

Featuring
AQUAECO | AQUADRAIN

EXPERTLY CRAFTED BATHROOMS

“20 YEARS of experience,
creating the **HIGHEST QUALITY PRODUCT**,
CRAFTED using generations of **EXPERTISE AND TRADITION**.
Setting new **STANDARDS** in **DESIGN** and **SERVICE**,
The **BOUNDLESS PASSION** of hundreds,
with **ONE COLLECTIVE VISION...**
Creating your **DREAM BATHROOM.**”

Since it was established in 1995, SANIPEX GROUP and its BAGNODESIGN brand have been built upon trust and partnerships with its professional clientele; be they designers, developers, retailers or project managers. Quality and service have always been kept at the heart of the company's value proposition, supported by inspiring, on-trend and interactive showrooms.

Comprehensive and integrated collections have been developed to meet designer and retail requirements and BAGNODESIGN as well SANIPEX brand products have been specified and installed in some of the world's finest hotels, iconic buildings and high-end residential developments. Today the brand's products can be found in key projects by residential developers, hospitality groups and prestigious institutional buildings.

With a portfolio that spans more than 2,300 products, BAGNODESIGN has a diverse offering, enhanced by SANIPEX GROUP's partnership with globally recognised brand names. The group represents some of the world's leading manufacturers, most of whom are exclusive within the markets in which it operates, in particular the Middle East, Central and South Asia and Africa. Having access to such a wide range of quality products enables SANIPEX GROUP to compete for any project by being able to offer a solution, irrespective of design aesthetics or budget.

From big-budget projects to smaller, one-off commissions, every bathroom design can be finished to exacting standards whilst keeping quality and value for money front of mind.

FS 605699

EMS 605700

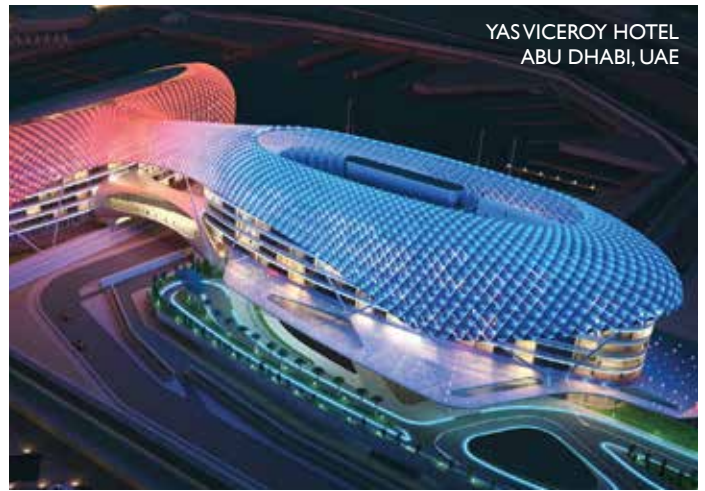

GLOBAL REACH

The project division has developed an enviable reputation as an accomplished and experienced bathroom supplier to the professional project sector. Our legacy of providing real value and expert service is illustrated in the broad list of project references across the hospitality, residential and institutional segments of the market. Working closely with stakeholders through every stage of a project, this success is no accident and is testament to genuine know-how coupled with teamwork and an ability to interpret clients' requirements in such a way that delivers outstanding bathrooms on time and within budget. These accomplishments are underpinned by our proven supply chain and excellent logistics capability, reinforced through technical support and after-sales service.

Marble basins individually carved from a solid piece of rock, each basin retains its own unique colour, texture and appearance. Chiselled, honed and polished by hand to create contrast and accentuate the natural characteristics of the marble itself, a BAGNODESIGN marble basin will take its rightful place as the centrepiece of an amazing bathroom or spa.

The various marbles used have been chosen for their strong concentration of fossils and as they are a purely natural product, there will always be the presence of different variations of veins, colours and shades, as well as micro-cracks and small holes. This gives each piece the characteristic of being truly unique.

Basins on this page do not have tap holes.

BAGNOQUARTZ

blended stone . unparalleled luxury

BAGNOQUARTZ composite stone is manufactured from a specialised compound of natural minerals, pure polyester polymers and quartz crystal aggregate. The result is a solid surface product with a warm, velvety touch – the ideal material for creating smooth, organic basins and bath tubs.

Beautifully versatile in every way, the innovative nature of the countertop basin serves to highlight the contemporary edge of the vanity. Whatever style of bathroom space, Art is more than simply a welcome guest, it is a style statement that blurs the edges between classic and modern in the most regal of ways.

- *Shelves can be supplied as shelves only to hold towels, toiletries etc. for use with Metreaux or Corsair brackets.
- *Shelves to be mounted on the unit for basins. Fixing brackets will be supplied with the unit, but NOT fixing screws.
- *Shelves + units can be added to make different suggested combination. We do not suggest use of the 1800 mm basin with the 1804 mm shelf. See combination suggestions on the following pages.
- *All units come complete with soft push opening system.

BASIN FINISHES:

BASIN STAND FINISHES:

| Mezzanine

Mezzanine collection is a combination of strong geometric lines with some of the hottest colour trends for a bathroom. The washbasin, manufactured from the highest quality ceramic is available in four widths, and can be installed on a countertop or wall-mounted and is available in white, matt white or matt black. The smallest washbasin is also available as a semi-recessed option.

MIXERS

| Mezzanine

With the vast range of BAGNODESIGN mixers we wish to ensure that the chosen product is designed to be compatible with your household water system pressure.

HP - 2.0+

(High Pressure) products can only be used in HP systems only

MP - 1.0-1.5

(Medium Pressure) products can be used in MP and HP Systems

LP - 0.2-0.5

(Low Pressure) products can be used in LP, MP and HP Systems

The pressures allow us to calculate the minimum required Litres/min required for the mixers to function at optimum performance.

4 L/min – Basin Mixers

10 L/min – Bath Mixers

8 L/min – Shower mixer

5 L/min – Handshowers

8 L/min – Rainshowers

Please use this guide to help you but please run the details of any items past your plumbing professional before purchasing.

| Kudos Cube

A close-up photograph of a shower fixture, likely a shower head or arm, mounted on a light-colored wooden surface. The fixture is made of polished metal and is partially visible on the left side of the frame. The wood grain is clearly visible, and the lighting is soft, highlighting the texture of the wood and the metallic finish of the fixture.

SHOWER COMPONENTS

METREAUX	■	204-205

ANTI-SCALD DEVICE

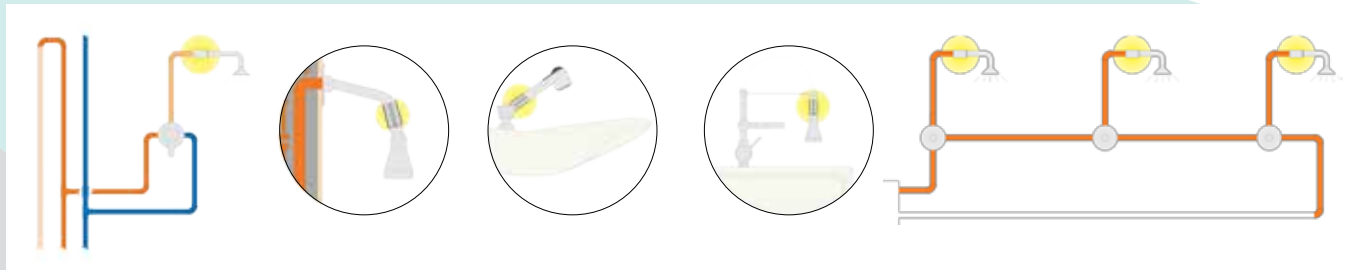

The AQUAECO anti-scald device will maintain a safe temperature of hot water for your appliances, a must for young children, the elderly and those requiring care.

By installing this device, the risk of scalding will greatly be reduced due to the automatic temperature detection, ensuring that when the water becomes too hot, the flow of water is stopped.

After reaching a safe temperature the device will re-activate.

APPLICATIONS :-

- Thermostatic temperature detector.
- Chrome brass body.
- Water flow is blocked if temperature goes above 48°C.
- Self reactivation when the temperature decreases.

Anti-Scald Device for Shower
Thermostatic Temperature Detector
Automatically Closes when Water
Temperature Exceeds 48°C

PRESSURE LIMITER APPLICATIONS

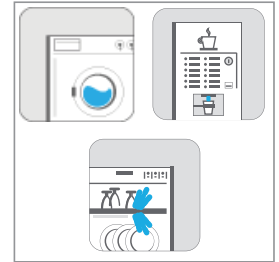

Shower heads/handles

- Protection against excess pressure load due to clogged nozzles or high line pressure

Bidet Sprays

- Protection against overpressure and water hammer
- May ease operation

Other Applications

Available in multiple finishes

Pressure Limiter
Limits the Downstream
Pressure to 1.0 bar

WATER SAVING SOLUTIONS

- Reduce your water consumption considerably using AQUAECO's range of aerators and connection fittings with flow-limiting devices from Neoperl.
- Minimal effect to the function of the mixer or shower; does not hamper performance.
- Installing flow-limiting devices can result in a 40-50% cut in water consumption.
- AQUAECO offers various types of reducers from Neoperl, detailed in the table below.

Flexi Washer Flow Regulator

Concealed Cisterns on Page 384

AQUAECO flushing solutions

- **More space:** Since concealed cisterns are built into the wall, they free up a considerable amount of bathroom space that would otherwise have been taken up by the cistern.
- **State-of-the-art technology and durability:** the AQUAECO range of concealed cisterns boasts high-tech working parts to ensure trouble-free operation. All cisterns are WRAS tested and approved.
- **Design freedom:** Homeowners and designers can pair their choice of actuator or flush plate and wall-hung or floor-standing toilet pan to perfectly complement their bathroom's particular style and design.
- **Easy to clean and hygienic:** Concealed cisterns and wall-hung WC pans provide the ideal easy-to-clean and optimum hygiene solution – no obstacles to clean around or cisterns to clean under.
- **Good for the environment:** All AQUAECO cisterns contain a dual-flush mechanism, helping to reduce running costs by saving water – using as little as two litres of water for a half flush.
- **Noise reduction:** Since the cistern is built into the wall, any noise created by the process of flushing is significantly reduced, making this an ideal solution for en-suite bathrooms. This is also a key in any hospitality requirement.
- **Strength:** All AQUAECO cistern frames are designed and built to support up to 400 kg in weight.
- **Warranty:** All AQUAECO cisterns come with an impressive 10 year warranty.
